

**Product Information:**

ADA Tackable Wall Panels are designed to be a great tackable wall panel for schools, workstations, and conference rooms.

**Construction:**

The core construction is a non-perforated mineral fiberboard. Finishes are completely adhered to the face of the panel and returned to the back for a full finished edge. All corners are fully tailored. Finishes include fabric and vinyl.

**Size Availability:**

Available in 3/8", 1/2", 5/8" thicknesses. We can accommodate custom sizes and shapes up to 4'x10'.

**Edge Detail:**

Available choices include: square, radius, and bevel edges.

**Mounting:**

Standard mountings include spot and perimeter adhesive, Z-Clip, concealed splines, impaling clips, hook & loop.

**LEED Eligible Product:**

Use of this product may help buildings meet green building standards as set by the Leadership in Energy and Environmental Design (LEED) Green Build Rating System.

**Flammability:**

Each component has been tested in accordance with ASTM E84 and has a Class I/A (0-25) rating.

**Warranty:**

ADA Tackable Wall Panels have a limited 1-year warranty starting from date of shipment. The panels are warranted to be free from defects in material and workmanship.

See product warranty for details and limitations.
